**INTD AFFILIATED COURSE PROPOSAL #0607 - ???**

COMMITTEE	
<b>IISP COMMENTS</b> Target approval timetable: Consideration by Departmental C&CC(s): Consideration by School/College C&CC(s): Consideration by INTD C&CC: Consideration by GEOC (if relevant): Consideration by Senate SSC (if relevant): Consideration by Senate C&CC: Consideration by Senate:	

**Notes:**

1. Every “affiliated” INTD course proposal has at least one academic department among its sponsors (a school- or college-sponsored proposal would fall into this category, too).
2. If the proposed course instructor is not a regular member of an academic department's faculty, please attach a statement listing the instructor's qualifications for teaching the course and any relevant experience (a *short* CV is fine). When a course is to be taught by a graduate student, then one or more regular faculty members would act as instructor(s) of record and would mentor the graduate student instructor. When a course is to be taught by an adjunct faculty member, then the support of the relevant department head or faculty coordinator should be indicated.
3. The availability of funds for instruction (including the hiring of GAs or adjuncts) must be confirmed.
4. Affiliated INTD proposals must be approved by the C&C committees of all relevant academic departments and their schools and colleges.
5. Relevant details would include approvals for inclusion in a plan of study.
6. Senate C&CC must approve all 100-level course proposals and upper-level courses open to sophomores. GEOC must approve all courses proposed to satisfy a general education requirement. Scholastic Standards must approval all satisfactory/unsatisfactory grading proposals. If your proposal falls into one of these categories, please make sure that you leave enough time for your proposal to be considered both by the INTD C&C Committee and relevant Senate Committee.
